

1. To those who live in the presence of God, who spend nights with God, here is something for you to say: "God, I trust you. You are my refuge, which means you are a place that keeps me safe."

2. What does God do to keep us safe? God rescues us from hidden traps and protects us from dangerous things.

4. With God caring for us, we don't have to fear scary things at night or what might harm us in the day. We don't have to fear what comes in the darkness or the afternoon.

3. God stretches over us like a bird with its wings, covering us with protection and love. God's faithfulness is like a shield that defends us.
